my dear Ross and Phyllis. should anything happen to me
I would like you (if you think best) to try and persuade
mother to keep her own home with suitable tenants or
companions of her own choice.
Our own Kith and Kin & friends have their own forms
of entertainments
friends with their different views may disturb her way
of spending her twilight years in life
I do try to give her every consideration.
For a very long time she always spends ten to
twelve hours a day in bed every day of her life
Yours gratefully and lovingly
Father Alfred G. Whitten
