Dear Phyllis Ross

Just a note to say my leg has
been really bad, nurse coming twice a day
to dress & bandage it ^{at both} & on every 2nd day.

I am going to Newcastle on Saturday afternoon
to see Chris. Coming back 25th November
Chris coming for me Saturday afternoon
I'll sit along back seat with leg along seat
& pillows behind me.

Bonnie came for a month. Her address
Bright (who had her arm in sling at 8th birthday
party) & now Marcia. Ran out of relations
who could come, so no alternative but to
accept the offer at Newcastle though don't like
leaving my little place. I have Marcia, Rebecca
Kathy, Madge Herdery, Bladdie Davies (see Newcombe)
to visit me & take to their places for few hours,
but have to be there for nurse when she comes
so mostly 34 mile St Mayfield 2304
my eyes feel awful but may be tablets. Had
to put eye specialist off & have the operation
appointment 5th Dec now

There is quite a big hole with cheap looking stuff
coming out. Brocamp kind of fat. Don't know where
from. Hard to walk about but have to walk
with a stick, but only in house at present, whereas
I was walking out up to Assens street when Leon
was here.

Doro went home to Berge for 2 weeks home today
Rolf had painful operation plastic joint
in first finger & am up for a cup or middle one
she has to go up to Ldi hospital for therapy
every day.

Jean is improving but has to come to Sydney
soon for examination Rolf back at work
managing sale yards

Here you can understand scribble
In haste mad on stomach, legs up on chair, eye ^{harming}
Hans Ross is improving Tell him I think of him
As we are both kind of invalids. As real ones but Jean walks
Do you hear from Alip much. Here she
is well. Love to all
