

126 Parry St

Durham

2830

7th Oct.

now

Dear Phyll & Ross, thanks for your

phone call & I am sorry I haven't writing to you
back - when I think of bringing to you
early in the morning or too late at
night so I've attached to write.

Gravely to news of Jan.
She came out of

agreement with hospital on the 30th Oct
(last week) & is looking for a notice at
fit & leaving at Peterborough. There's been
in hospital just on four months.
(she commenced work on 1st Nov for the
first of on the 3rd July). She is
working with the aid of crutches

& I'd be sure who live in a grand old
the money home - have her settled
over on stairs. That man one of
her friends came up on the 1st

and there was a car to take to hospital
so that I could get a present. I offered
to go back to help her but after all
been at home a few weeks she hopes

to go back to Booker Bay (near
to go back to Booker Bay (near
way way's where the trees) she has to
come back to Greenmount for (physis)

there & work but because she's now

an outpatient she has to get on
that so the physio went out for
2 weeks. she has high praise for
her

has been necessary thru physio
morning & afternoon & an
hours of occupational physio -
she has been for 3 days which

has been marvelous. her
& hubby, even staying in the city
friends & family members have
made regular visits to see her.

a great hope she says well for a
article now. a look forward to
the day when she is walking

well again.
michael, daphne & danna will be
home on the 8th Feb. the best

is not repeating him or the
7.30 ~~the~~ ~~at~~ ~~day~~ ~~for~~
they have closed the new york
office & only will have that

about 1/2 on Washington. if you
are able to watch the ABC net
wed 6th for the 7 o'clock news

michael will be broadcasting
the firm Washington on the
electrons.

(may replace the manager of ABC, Peter Ryan - tomorrow
I have to do more - a week or more!!!)

They have had a great time in America but are ready to come home. They have a gracious apartment. 3rd + 4th stories up so James is taken to the park for a game every day so he'll be glad to have his own back yard. To get to their car Mike climbs down the fire escape. (no back yard) you wouldn't want to come up with too many bees!! Anyway he hopes will have a job when he gets back the way the APSC is being cut about one wonder. ^{so prepare yourselves for news from crisis rather than an almost peace} it had a week away in Albany recently. Alet turned three on the 11th October - Rebecca is 7 1/2 now Margie, who teaches at Murray High (the third H.S. in Albany has been offered 5 days a week at North Albany next year - she's only had 2 1/2 days at Murray school nearly thinks it ^{has been} enough seeing Alet has been so young - the young ones however feel they have to work for their own reasons - including money!!

Libby's second daughter, Josephine, is going to St George Louis High next year - Jessica the youngest will go into 4th class - she's nine on the 10th of this month.

4. Deming's American Pen
I found from her page at
been since - arrived in
agency last night - you're
going to have dinner with
her to night at this city hotel.
going on a cruise on the
last night to - tomorrow. Then
at 7:00 am are having a dinner
party early in the week & then
church (yes, he's a church) are
going to eating & then welcome
before going home.
I hope you are ok again. Hope
we have to look after our health
officially now we're over the
"Hinnocall line" my health is not
bad - I try to walk a bit, &
exercise for my back in bed
every day. One a week I go to
apartment with air
taken in your little brother
with coming home? must be seen
they have been gone for some
time. Well, all these months
the time after -
with earnest love to you both
attempts for your call. Elymyn.
