well, fancy you in hospital  
too! Hope all is well now. Can just all  
days helping her father - much better  
than he has ever - besides it's  
nice to have one of the best just  
on her own to talk to anybody,  
whatever - I'm sure you both  
enjoyed your stay through your  
problems -

Jimmy is coming  
along well. They losing weight, 13 kilos  
initially but the diet coming down  
slowly. He is having 2 hrs physio  
morning & again afternoon with  
in hour of occupational therapy  
an her left arm & fingers  
- damage done before the accident  
of - Russian is able to visit  
almost daily (Finnish work  
group in chamber at At Home)

They can - John was up to a  
conference last weekend & called

Over + all is in a happy attempt  
national trust being her  
+ so we'll be seeing her  
giving + (it's about 1000) the  
taking her in what they  
high downed her to a certain  
party or that house. Every house  
our state member is a former  
captain of the 1st Regt. The 1st

The party (she's a captain) organized the  
to be held to night. So should be  
a happy evening. Jerry has  
been in hospital 3 months + 3 weeks  
of the doctors + nurses at Greenmount  
think it will be good for her  
year's rest are happy ones. The  
doctors say she is ahead of where  
they expected her to be. She says  
get through at the end of the day  
a week or so. This week she is  
hoping to get up. up, that's new  
they have been building up strength in  
her arm + shoulders. + ready  
can't all her getting out of hospital  
before made her - but they  
will prove me wrong.

I read morning Star's article -  
happy to see her so engaged in -  
his mother was a "brave" lady -  
with her son out "post man" -  
his name the Kops were in Germany  
for a while. I don't know the  
particular names - but the article

became a judge we transferred  
 "We say hope - some hope" as it  
 turned out. I have had several in  
 that area being now a corner of  
 marriage too - her mother's marriage  
 the ~~the~~ ~~the~~ were first cousins. Her  
 mother Pearl, was the Rev. Clark's sister.  
 - same work.  
 a woman against the father's day work.  
 I'd give action to care for his ~~the~~  
 gives notice the parents' marriage to  
 drama for the work. Well - I thought  
 the heavy burden would be taken  
 away & his ~~the~~ almost had a  
 that fall on their car, at Semina  
 me of a lovely woman film called  
 "Sweet Makena" about an English  
 couple who went to their cottage  
 in the Cotswolds for a quiet  
 weekend - & all hell broke loose.  
 Poor chosen & Beth. Clin. Grad. &  
 won't up there trying to get  
 doctor - clin not a good air  
 traveller.  
 Michael, Jeff & James are  
 collaborating in Miami - he'll be  
 that out when they come back  
 with the rum about the elections  
 that he home around next January.

John's grand daughter Annam  
is one hour & east of Boston for  
her birthday but I will have the

my later. At present Roberta will  
be home on Sunday for about  
a week. Also Kate's are coming

from Sunday to the Friday.  
Kate's grand daughter Roberta  
are like coming & being -

coming coming. When they meet  
up they sleep together - play  
together & are just so comfortable

it is nice to see. They love my  
kiss of love with the hats, pearls,  
in making shirts the - but

Roberta is mine in now Roberta  
almost 7 1/2 - so I guess they  
have almost grown out of the

hats and I hope it is warming  
well. They hope it is here  
up in Cambridge with the dog daily

my daughter is out as are the  
pink flowers to the - the ornaments  
I still talk with some things cut

great part of the larger trees -  
from some of the trees a new order,  
Lavinia more. The decisions are  
arrived from. The others are

Golden Rain Chinese to you both. Program  
please say love to your both. Program  
when we see with's coming home?

I started to collect a rug  
 for Russia (I'd like to see)  
 in various colors & have  
 finished it. It looks pretty good  
 rather nice - I've done  
 2 rows of black in between the  
 reds, greens, greys etc. I don't  
 see what but acetic & py  
 - more like acetic. No thought  
 of doing for all of them - do  
 America, this is about 10 mt. No you  
 another? I've also finished  
 America a third jumper for 7 mt  
 think - about 10 mt also  
 darker range a thick blue jumper  
 for her birthday in March.  
 numbers in Albany are similar  
 to those in California.  
 I had a luncheon last week.  
 Jean Goretie, whose husband  
 was the Vice minister when we  
 came to Kyoto. (Both from Rockhampton  
 - they appear) he died several years  
 ago. - name since into was Falls  
 like a lion - she's 90 now & had  
 a party which I'd like to  
 mention in late Queen Cameron

\* second wife

— it's handy having the Cameron's  
& ~~the~~<sup>me</sup> in the city — & two old  
dear friends who live nearby.  
I didn't get to a lot of trouble  
& we all had a good time. When I  
think of the caution afternoon  
teas we used to have at Young  
I nearly pass out. My  
first visitor was Paddy Conway  
(formerly a heavy at FBI) whose  
mother & father were Rural bank  
people. I couldn't cook & had  
to know what I served up.  
She was a former nurse &  
always asked lost souls like  
nurses & teachers to her do's.  
no more. Guess your  
garden looks nice too.  
Gwynn.
