

105 Tarawara Ave.,
Mudgeeraba. 4213. Q.

Dear Mrs. Holzer,

I am sorry it has taken me so long to get back to you.

My immediate family are living here in the Gold Coast Hinterland, and we've all been here about 12 years.

My 82 year old grandmother, Bridgette, is the oldest Whitten I know, and in asking her about the list of people you sent me, she couldn't throw any light on the subject.

Her husband was one of seven brothers born in Ballarat, Vic., and to her knowledge they were of English descent. They all went their separate ways very early in their lives and there hasn't been any contact since.

So I am afraid we are a very isolated bunch of Whittens. I am sorry I couldn't be of more help to you and I do wish you luck with your quest. I will keep your letter as, one day, I hope to have the time and patience to trace our origins too. If you do find some link between us, even though I haven't been of much help, I would be delighted to hear from you.

Once again, good luck.

Regards
Helen Whitten.
